PENETRATION TESTING AGREEMENT

Between:
Pentester: Omoniyi Oni
Client: ParoCyber

Effective Date: 1st December 2025,
Engagement Period: Two Weeks.

1. INTRODUCTION

This Penetration Testing Agreement ("Agreement") sets forth the terms and conditions under which the Pentester will perform authorized security testing services for ParoCyber. The purpose of this engagement is to identify, ethically exploit, and report security vulnerabilities across the agreed attack surface in a controlled and lawful manner.
Both parties acknowledge that penetration testing carries operational risk. Accordingly, this Agreement outlines permissions, restrictions, responsibilities, and liability protections to ensure the engagement remains safe, legal in line with industry best practices.

2. SCOPE OF WORK

2.1 In-Scope Assets
The following systems and network ranges are explicitly authorized for testing:
   a. Systems/Servers,
   b. IP Ranges.
   c. APIs/Endpoints

Only the assets listed above are in scope. Testing any other systems is strictly prohibited.

2.2 Testing Methods
The Pentester is authorized to conduct the following categories of security testing:
   a. Network Penetration Testing (external)
   b. API Security Assessment.
   c. Vulnerability Assessment.
   d. Privilege Escalation Testing.
   e. Wireless Security Testing.
   f. Social Engineering.
   g. Physical Security Testing.

Each method will be executed according to industry standards such as OWASP, PTES, NIST 800-115, and OSSTMM. Any activity outside the approved scope requires a signed addendum.

3. RULES OF ENGAGEMENT

3.1 Testing Schedule
Testing will occur during:
- Testing Window: 7th December 2025 to 20th December 2025
- Time zone: WAT (9:00 AM - 5:00 PM on weekdays).

Separate approval is required for all testing conducted outside of standard hours.

3.2 Communication Protocols
a. A designated point of contact shall be provided by each party.
b. Critical findings (e.g., discovery of active compromise, critical vulnerabilities) will be immediately reported to the client via email.
c. Daily or weekly status updates may be provided upon request.

3.3 Safety Measures
The Pentester shall:
a. Use non-destructive exploitation methods wherever possible
b. Stop testing immediately upon detecting instability
c. Maintain logs of all actions taken
d. Use encrypted channels for data transfer
e. Ensure testing tools contain no malware
f. Patch or revert test tools after engagement

4. LEGAL AUTHORIZATION

ParoCyber hereby grants the Pentester full authorization to perform security testing on the systems listed in Section 2.1. This authorization protects the Pentester from any claims of unauthorized access under:
- Computer Misuse and Cybercrime laws
- Data Protection or Privacy laws
- Organizational internal policies

ParoCyber confirms that they own or have legal control over all assets in scope.

5. CONFIDENTIALITY & DATA HANDLING

5.1 Confidentiality

The Pentester agrees to maintain strict confidentiality of:

- ParoCyber data
- Credentials obtained during testing
- ParoCyber business-sensitive information
- Technical architecture details
- Any uncovered vulnerabilities
-

5.2 Data Protection

The Pentester shall:

- Store data securely using strong encryption
- Retain sensitive data only for the duration of the engagement
- Destroy all collected data within 10 working days after final report delivery
-

5.3 Non-Disclosure

A separate NDA or confidentiality clause may be appended.

6. DELIVERABLES

At the conclusion of testing, the Pentester will provide:
